

## PROJECT LEADER

### Your Mission:

- As a **Project Leader**, you manage and coordinate assigned projects from order intake through to final delivery and commissioning at the customer's site
- You act as the main point of contact for customers throughout the project, ensuring clear communication and strong relationships
- You define project scope and technical solutions in collaboration with engineering teams (mechanical, electrical, and software) and ensure alignment with customer requirements
- You monitor project progress (planning, budget, quality, and deadlines) and take corrective actions in case of deviations
- You coordinate internal teams, suppliers, and subcontractors, and ensure smooth execution during manufacturing, assembly, and installation phases
- You organize and lead key project milestones, including kick-off meetings, internal and customer acceptance tests, and final project reviews

### We Offer:

- An opportunity to take initiative and grow in a collaborative environment built on collective intelligence
- A competitive salary package aligned with your experience, including additional benefits
- Permanent contract
- 35 days off
- Luncheon vouchers (8 €)
- Bonus in the company's profits
- Group and hospitalisation insurance
- Training opportunities

### Your Profile:

- You hold a Bachelor's or Master's degree in a technical field, preferably in electromechanics, or have equivalent experience
- You have strong project management and organizational skills, with the ability to work autonomously and take decisions
- You are customer-oriented and have excellent communication skills, with the ability to present technical solutions clearly
- You are creative, collaborative, and solution-focused, with strong problemsolving abilities
- You are comfortable working in a multidisciplinary environment and interacting with internal teams, suppliers, and clients
- You speak French, with at least a good knowledge of English (German and/or Dutch will be a serious asset)

We don't just offer you a job, we offer you the chance to build the factories of the future !
