

PROJECT SUPPORT ENGINEER

Your Mission:

- As a **Project Support Engineer**, you provide technical support to Project Leaders by managing small projects, machine copy builds, and spare parts from order intake through to delivery
- You act as the main point of contact for customers for spare parts and small-scale projects, ensuring timely and effective communication
- You coordinate project activities in collaboration with engineering teams and ensure alignment with technical specifications and customer requirements
- You support the purchasing process by preparing and following up on orders, monitoring delivery deadlines, and coordinating with suppliers
- You contribute to the preparation of technical documentation, including machine files and CE dossiers, in collaboration with the Technical Quality Controller
- You monitor project progress (planning, costs, and quality) and take corrective actions when necessary to ensure successful delivery

We Offer:

- An opportunity to take initiative and grow in a collaborative environment built on collective intelligence
- A competitive salary package aligned with your experience, including additional benefits
- Permanent contract
- 35 days off
- Luncheon vouchers (8 €)
- Bonus in the company's profits
- Group and hospitalisation insurance
- Real development opportunities within the company

Your Profile:

- You hold a technical degree (Bachelor's in electromechanics or equivalent experience)
- You are organized, autonomous, and detail-oriented, with a strong sense of initiative
- You have good technical understanding and are able to read and interpret assembly and technical drawings
- You are customer-oriented, with strong communication skills and a proactive mindset
- You are solution-focused and able to analyze problems and work collaboratively with engineering and production teams
- You are fluent in French or German and have good command of English

We don't just offer you a job, we offer you the chance to build the factories of the future !
